

Wreath Information:

Pictures of our finished wreath can be found at <https://www.knickknackshack.co.uk> and there is a video tutorial on how to make this wreath on youtube at:

https://youtu.be/VGBq_MXwYL8

Our wreath is 12" total with a 1.5" depth ring but you can choose whatever size you like.

I highly recommend using hot glue once you have chosen where your components are to be placed.

TIP: It may help to lay everything on the wreath in various different configurations before you start and take photos to refer to later.

I worked in "layers" in the following order:

1. Brown Twigs, branches
2. Green Foliage
3. Dried grasses
4. Place flowers, bows, eggs, butterflies etc. in your chosen design and hot glue them in place.

Suggestion: Add bunting or hanging decorations of your choice.

Most Importantly, Have Fun!!
